**Empowering
Transformation**

AI-powered applications
digitalizing and transforming the
AEC (Architecture Engineering &
Construction) Industry

Future Ready Solutions

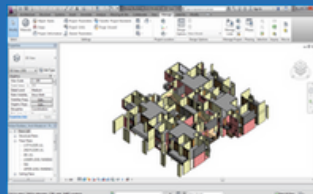

CivitPERMIT

CivitPERMIT based integrated Building Plan Approval System enables automatic scrutiny of building proposals by reading Building Models submitted by Applicant/Architect.

CivitPLAN

CivitPLAN designed for architects and building plan consultants saves time and cost by helping validate and create compliance-ready building plans.

CivitBUILD

CivitBUILD is all-in-one construction ERP software that brings digital transformation to construction businesses through automation, collaboration and intelligence.

CivitINFRA

CivitINFRA is an automated, intelligent, transparent and integrated solution replacing the existing manual, siloed and paper-based process of managing public infrastructure projects.

The AI-powered platform serving all the AEC industry stakeholders

Digitally aligning architecture, engineering and construction (AEC) eco-system to empower smarter planning, easy collaboration, and flawless project execution.

Our integrated platform makes it easy and efficient for all stakeholders to manage the entire construction life cycle. Our products are uniquely designed for the AEC industry by industry experts and are process-oriented and intuitive to use.

Pioneering Products & Solutions

7+ products & solutions widely accepted by world market

Customers & User Base
